

Waterproof Cube Case

CC150: 150 x 150 x 150mm

CC125: 125 x 125 x 125mm

A new modular waterproof case designed to adapt to your application

This cube-shaped waterproof case features a modular design with interchangeable panels on all six sides, allowing flexible customization for different applications and installation environments. It enables functional changes—such as adding cameras or connectors—while maintaining full waterproof performance.
