

# Waterproof Camera Housing

for Arducam cameras

IP67

## Dustproof and waterproof camera housing for Arducam cameras

This is a camera housing set compatible with Arducam cameras.

It includes all necessary components—such as a mounting base and cables—for installing the camera inside the housing, allowing the system to be used immediately by simply preparing the camera.

## What's included

- 1 x Camera housing
- 1 x Dome window and flat window for the housing
- 1 x Camera mounting parts (mounting plate and spacers)

The contents included in the set may vary depending on the camera connection method used.

### Direct connection method

- 1 x USB cable with cable gland

### Connector and cable configuration

- 1 x Internal cable with waterproof connector
- 1 x Waterproof cable

### Cable with cable gland

**USB Type A 2.0 - UL1571 24AWG PH1.5-4P**

This cable is equipped with an IP68-rated cable gland. It can be mounted directly to the housing case, with the connector connected directly to the camera.
