IP67

Dustproof and waterproof camera housing for SMTSEC cameras

This is a camera housing set compatible with SMTSEC cameras.
It includes all necessary components—such as a mounting base and cables—for installing the camera inside the housing, allowing the system to be used immediately by simply preparing the camera.

What's included

1 x Camera housing
1 x Dome window and flat window for the housing
1 x Camera mounting parts (mounting plate and spacers)
1 x Internal cable with waterproof connector
1 x Waterproof cable

The contents included in the set may vary depending on the camera connection method used.

Internal cable

It can be directly connected to the camera using a cable integrated with a waterproof panel-mount connector.
